

METHOD FOR STORING AND HANDLING A ROLL IN A PAPER
MACHINE, INCLUDING A ROLL BOX

Abstract

5 A method for storing and handling a roll of a
paper machine, board machine, or finishing machine
includes using a special base arranged for the roll on
which the roll is moveable from its operating location
to a roll store and/or to a transport, or for storing
the roll in the store. The base is made into a roll box
10 inside of which suitable heat and humidity conditions
are arranged for the roll. The conditions are
maintained when using such a base or area as the roll
store.
